SA International Releases PhotoPRINT Select 3.0 for Canon

Salt Lake City, UT – March 18, 2009 – SA International (SAi), the leading provider of Solutions for the Professional Sign Making, Large Format Digital Printing and CAD/CAM for CNC Machining Industries, announces the release of PhotoPRINT Select 3.0 for Macintosh™ and Microsoft Windows™ operating systems.

Windows and Macintosh users alike can enjoy working in their preferred operating system with PhotoPRINT Select 3.0. This is the perfect RIP solution for Canon users working with a single workstation environment. Send jobs to RIP and print directly from popular design applications such as Adobe Photoshop® and Illustrator®, QuarkXPress® or CorelDRAW®.

Highlights of PhotoPRINT Select 3.0 include:

- Drivers for all Canon printers
- Improved job nesting
- Pantone Color Mapping
- Drag and Drop image files directly into the queue
- Scale, Rotate, Copy, and Mirror individual jobs
- Simple and logical user interface
- Separate Rendering Intents for Vector, Bitmap, Text and Gradient

“We believe that PhotoPRINT Select 3.0 is the perfect solution for Canon printer users. The simple and efficient interface allow them to produce quality output in very little time, and delivers a reliable and productive workflow,” states Sarit Tichon, Senior Vice President of Worldwide Sales and Marketing for SAi. “SA International is pleased to continue strengthening the partnership with Canon with the latest release of PhotoPRINT Select.”

About SA International

SAi is recognized as a global leader in providing complete, professional solutions for the sign making, digital printing and CNC machining industries. The Company’s solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Salt Lake City, Utah, SAi has additional offices in Belgium, Brazil, and Japan.
