SA International Announces the Release of Flexi 8.5™

Philadelphia, PA – October 2, 2007 – SA International (SAi), the leading provider of Software Solutions for the Professional Sign Making, Digital Printing, Proofing, and CAD/CAM for CNC Machining Industries, announces the release of Flexi 8.5 – Number 1 for a reason.

By integrating finely tuned technology with years of feedback from our partners and users, Flexi Family 8 maintains its status as the number one choice for dependable, feature-rich Sign Making Software with uncompromising quality.

“SAi is very pleased to announce the new Flexi 8.5 product family,” states Don Feagan, President and COO, SAi. “This release shows how Flexi has once again grown to dramatically improve with state of the art features and advancements. As the sign and printing industries continue to expand and transform, the Flexi 8.5 family of products remains the number one choice in the Sign Making market.”

Flexi 8.5 features compatibility with Windows Vista™ operating system, dual roll printing, Application Direct Printing through dynamic PPDs and repeat job function. Also, continuing our efforts in ease-of-use, we offer a point-and-click color variations tool and context-sensitive help files. Version 8.5 is proof of our continuous effort to remain the number one sign making software in the industry. For a further list of features, go to www.Flexi85.com
