SA International Announces the Release of PhotoPRINT™ 6

Philadelphia, PA – October 2, 2007 – SA International (SAi), the leading provider of Software Solutions for the Professional Sign Making, Digital Printing, Proofing, and CAD/CAM for CNC Machining Industries, announces the release of PhotoPRINT 6 – more than just a RIP.

As technology moves forward, SAi brings you a new era in color management. Progressing along with the large format industry, PhotoPRINT 6 is designed to help your productivity ascend to new heights while maintaining SAi's signature ease-of-use interface.

“SAi is very happy to announce full availability of the PhotoPrint 6.0 family of products,” states Don Feagan, President and COO, SAi. “PhotoPrint Version 6.0 delivers an easy-to-use interface and excellent color output that are synonymous with the PhotoPrint product.”

PhotoPRINT 6 highlights include compatibility with Windows Vista™ operating system, a redesigned user interface, dual roll printing and Application Direct Printing through dynamic PPDs. Also, continuing our efforts in ease-of-use, we introduce Print Wizard, which offers inexperienced users a fool-proof path to high quality output and a new point-and-click color variations tool. Users of all skill levels will appreciate the improved Color Profiler, which simplifies the workflow of ICC output profile generation while adding time-saving features. For a further list of features, including movie demonstrations, go to www.PhotoPRINT6.com.

About SA International:
