Scanvec Amiable Announces EnRoute 3 now outputs directly to Gerber Router Tables.

Philadelphia, PA, May 27th, 2003 – Scanvec Amiable is pleased to announce the Gerber Scientific Router tables can be driven directly from the current EnRoute 3. This new capability will offer Gerber table owners the features and benefits of EnRoute 3, such as the state-of-the-art toolpathing technology and nesting functions. Gerber users will have a smooth transition with the user-friendly interface; the program is easy to learn and use.

Just of the few productivity benefits of EnRoute 3 are:

- True Shape Nesting included in Plus and Pro to save on material and cut time
- Fast, reliable toolpath engine that can handle the most complicated files
- Create and edit designs right in EnRoute 3
- Frequently used toolpaths can be saved with all parameters and easily reused
- Material Libraries and Tool Libraries can be used to ensure proper speeds
- Toolpaths automatically resized when contours are resized
- Several ways to check output prior to sending to machine
- Scanvec Amiable vectorizing capabilities included with EnRoute 3 Plus and Pro
- Output directly to the router table

A special promotion for Gerber Router Table users is being offered now for a limited time. Contact Scanvec Amiable for additional details.

About Scanvec Amiable:

Scanvec Amiable is the recognized global leader, enabling the graphics manufacturing industry in creating innovative and cutting edge displays. Scanvec Amiable offers complete and professional solutions for the sign making, digital printing, and CAD/CAM for CNC manufacturing industries. Headquartered in Philadelphia Pennsylvania, Scanvec Amiable has additional offices in California, Belgium, Puerto Rico, Beijing, China and Russia.
