SA International Announces Release of Drivers for the New HP DesignJet 10000

Philadelphia, PA – September 21, 2006 – SA International (SAi), the recognized global leader in providing complete, professional software solutions for the large format digital printing and sign making industries, continues to maintain a strong partnership with HP and their line of industry leading DesignJet printers. SAi has created new output drivers and ICC Profiles specifically to support the new HP DesignJet10000 Solvent Printer. The combination of SAi's leading RIP software solutions with HP's industry leading printers is guaranteed for high productivity and quality color as the industry would expect.

SAi has the ability to drive the HP DesignJet 10000 producing vibrant color with our PhotoPRINT 5 line of products and also FlexiSIGN-PRO 8 and FlexiPRINT & CUT 8. Our RIP solutions are powered by a genuine Adobe 3 RIP engine, which brings speed and reliability to support this high quality printer. SAi's new driver and ICC Profiles for the HP DesignJet 10000 are available immediately.

"SAi is proud to continue to support Hewlett Packard and it's DesignJet Series of Outdoor Printers," states Jim Cain, Vice President of Sales and Marketing, SA International. "The combination of the HP DesignJet 10000 and the world's # 1 RIP and sign making software makes an unbeatable solution to all outdoor printing needs."

About SA International:

SAi is recognized as a global leader in providing complete, professional software solutions from design to production for the sign making, digital printing, and CNC machining industries. The Company's software solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Philadelphia, Pennsylvania, SAi has additional offices in Belgium, Brazil, Puerto Rico, China and Russia.
