Scanvec Amiable Announces the Release of the EnRoute WOOD at AWFS Show

Philadelphia, PA, July 21st, 2003 – Scanvec Amiable has announced the release of a new **EnRoute Wood** software package specifically designed for the woodworking markets. **EnRoute Wood** brings a new level of ease of use and creativity tools to woodworking business by providing a *seamless connection* between cabinet software from one side and the CNC machine on the other. Add to this its state-of-the-art tools for custom 2D and 3D design and intricate carving techniques, and expand existing routing capabilities with powerful new additions that will transform wood to WOW!

Features include:

- Seamless integration of CNC Machine and Cabinet Software packages
- Associative Tool Path
- 2D and 3D Decorative Carving
- Raised Panel Door Design
- World's Best Vectorization
- Output File Verification
- Material and Tool Libraries
- Advanced True Shape Nesting
- Automatic Inlay
- Advanced Drill and Slot Cutting
- Intelligent Ordering
- Template Creation

EnRoute Wood will be demonstrated at the **AWFS** show in Anaheim, CA July 31st through August 3rd, 2003 in booth # 593.
