**Scanvec Amiable Announces the Release of PhotoPRINT™ 5**

**Philadelphia, PA – November 18, 2005** – Scanvec Amiable, the recognized global leader in providing complete, professional software solutions from design to production for the sign making and large format digital printing industries, announces the release of PhotoPRINT 5 – taking colors to the extreme.

PhotoPRINT 5 the next generation of high quality digital printing and RIP software solutions is available immediately. As the large format industry continues to progress and expand, PhotoPRINT 5 once again grows to enhance users' workflow and increase their productivity. Users will be able to take advantage of the numerous technological breakthroughs and advancements easily, with the continued ease-of-use and logical user interface of PhotoPRINT 5.

"Scanvec Amiable is very excited to announce the new PhotoPRINT 5 product to our valued customers and partners," states Mark Blundell, CEO and President, Scanvec Amiable. "As the large format printing industry continues to transform, Scanvec Amiable is launching the next generation of PhotoPRINT with new and enhanced features to take colors to the extreme."

PhotoPRINT 5 is available for both PC and Mac™ platforms, localized into thirteen languages for worldwide distribution through Scanvec Amiable's network of value-add resellers.
